

MAYRTEAMWORK

PROCESS OPTIMISATION FOR YOUR BUSINESS

„ Our goal is to develop optimal structures and processes to support innovation, digital transformation and sustainable revenue optimization“

Consulting Approach

Consulting Approach - **MAYRTEAMWORK** has been operating as an independent consulting firm since 2009. In cooperation with a network of specialists, we offers a comprehensive range of consulting and services for optimizing business processes in conjunction with the use of modern information and communication technologies.

We focus on the customer's business processes and consider the close integration of controlling, IT and corporate communication as a value added and production factor. The consulting approach is to create an optimal IT application and communication infrastructure for controlling and communication with regard to existing and future challenges.

Consultant Team

Consultant Team - Only those can take up a responsible consultancy function at **MAYRTEAMWORK**, who have previously gained a practical and professional experience of several years in their function or business branch.

We take great care that our teams have the necessary level of life experience in addition to expertise and human integrity. In this way, we ensure consulting services of a high quality and are able to look at topics from an entrepreneurial perspective. Our team members come from different disciplines. Depending on the requirements, we respond to the specifics of each individual project.

Cooperations

WIEDMANN CONSULTING GMBH
